

Jondaryan State School

Strive for the best

The mission of Jondaryan state School is to facilitate the academic, cultural, physical, and social development of each child and in doing so encourage children to become self-motivated learners who can work independently or co-operatively.

As discussed in previous P&C meetings we will be having our behaviour audit conducted by departmental personnel next week. As a reminder to everybody, the following information is a reflection of our day to day practices at school. The students are all familiar with these expectations and values and we encourage you to discuss them with your children.
