Our school initiatives are on track to meet or exceed our targets

During 2016, we focused on maximising the benefits of this funding for our students. After reviewing our 2016 *Investing for Success* agreement, it is clear that we are on track to meet or exceed our targeted student outcomes. We continue to implement our initiatives to ensure that every student succeeds.

Initiatives implemented include:

- Employing an extra teacher aide one day each week to support targeted math lessons in class.
- Employing a teacher to provide targeted, small group numeracy lessons focusing on problem solving and skills to improve mathematical fluency.
- Implementing the Impact Numeracy Booster program for select year 4 and 5 students.
- Using a variety of different mathematics resources including concrete, abstract and technology based resources to support the teaching and learning of mathematics.
- Embedding a PLC culture focused on researching, discussing and applying mathematical problem-solving pedagogy.
