1. Purpose

Jondaryan State School is committed to providing a safe, respectful and disciplined learning environment for students and staff, where students have opportunities to engage in quality learning experiences and acquire values supportive of their lifelong wellbeing.

The school community has high expectations and staff, parents and students work together to facilitate high standards of behaviour so that the learning and teaching in our school can be effective and students can participate positively within our school community.

2. Consultation and data review

Jondaryan State School developed this plan in collaboration with our school community. Broad consultation with parents, staff and students was undertaken along with community discussion. A review of school data relating to attendance, absenteeism, school disciplinary absences and behaviour incidents from 2011-2012 also informed the development process.

The Plan was endorsed by the Principal, the President of the P&C and Executive Director in November 2017, and will be reviewed in 2020 as required in legislation.

3. Learning and behaviour statement

All areas of Jondaryan State School are learning and teaching environments. We consider behaviour management to be an opportunity for valuable social learning as well as a means of maximising the success of academic education programs.

Our Responsible Behaviour Plan outlines our system for facilitating positive behaviours, preventing problem behaviour and responding to unacceptable behaviours. Through our school plan shared expectations for student behaviour are plain to everyone, assisting Jondaryan State School to create and maintain a positive and productive learning and teaching environment, where ALL school community members have clear and consistent expectations and understandings of their role in the educational process.

Our school community has identified the following school rules to teach and promote our high standards of responsible behaviour:

- Be safe
- Be responsible
- Be respectful.

Our school rules have been agreed upon and endorsed by all staff and our school P&C. They are aligned with the values, principles and expected standards outlined in Education Queensland’s Code of School Behaviour.
4. Processes for facilitating standards of positive behaviour and responding to unacceptable behaviour

**Universal Behaviour Support**

The first step in facilitating standards of positive behaviour is communicating those standards to all students. At Jondaryan State School we emphasise the importance of directly teaching students the behaviours we want them to demonstrate at school. Communicating behavioural expectations is a form of universal behaviour support - a strategy directed towards all students designed to prevent problem behaviour and provides a framework for responding to unacceptable behaviour.

A set of behavioural expectations in specific settings has been attached to each of our three school rules. The Schoolwide Expectations Teaching Matrix below outlines our agreed rules and specific behavioural expectations in all school settings.

<table>
<thead>
<tr>
<th>SCHOOLWIDE EXPECTATIONS TEACHING MATRIX</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>ALL AREAS</strong></td>
</tr>
</tbody>
</table>
| BE RESPECTFUL | • Use equipment appropriately  
• Keep hands, feet and objects to yourself  
• Walk  
• Sit still  
• Enter and exit room in an orderly manner | • Participate in school approved games  
• Wear shoes and socks at all times  
• Be sun safe; wear a broad brimmed hat | • Rails are for hands  
• Walk one step at a time  
• Carry items  
• Keep passage ways clear at all times | • Respect privacy of others | • Use own bike/scooter only  
• Walk bike/scooter to the gate  
• Wait inside the gate until the bus stops |
| BE RESPONSIBLE | • Ask permission to leave the classroom  
• Be on time  
• Be in the right place at the right time  
• Follow instructions straight away | • Be prepared  
• Complete set tasks  
• Take an active role in classroom activities  
• Keep work space tidy  
• Be honest | • Be a problem solver  
• Return equipment to appropriate place at the sports bell | • Move peacefully in single file | • Use toilets during breaks  
• Leave school promptly |
| BE SAFE | • Respect others’ personal space and property  
• Care for equipment  
• Clean up after yourself  
• Use polite language  
• Wait your turn | • Raise your hand to speak  
• Respect others’ right to learn  
• Talk in turns  
• Be a good listener | • Play fairly – take turns, invite others to join in and follow rules  
• Care for the environment | • Walk quietly and orderly so that others are not disturbed | • Wash hands with soap  
• Walk |

These expectations are communicated to students via a number of strategies, including:

- Behaviour lessons conducted by classroom teachers;
- Reinforcement of learning from behaviour lessons on School Assemblies and during active supervision by staff during classroom and non-classroom activities.
Reinforcing expected school behaviour
At Jondaryan State School, communication of our key messages about behaviour is backed up through reinforcement, which provides students with feedback for engaging in expected school behaviour. This reinforcement system is designed to increase the quantity and quality of positive interactions between students and staff.

Jondaryan State School Positive Notice
Staff members follow the ‘You Can Do It’ values education. Students are recognised for their efforts in all ‘Five Keys to Success and Happiness’. This reinforcement occurs continuously throughout the year. When staff ‘catch’ a student following the rules they can choose to give them a sticker on their chart. When students are given five You Can Do It stickers in a row for any given section they are given a reward. If they fill the chart getting five positive stickers in each section they will earn a gold award. Stickers are never removed as a consequence for problem behaviour.

Responding to unacceptable behaviour
Students come to school to learn. Behaviour support represents an important opportunity for learning how to get along with others.

Re-directing low-level and infrequent problem behaviour
When a student exhibits low-level and infrequent problem behaviour, the first response of school staff members is to remind the student of expected school behaviour, then ask them to change their behaviour so that it aligns with our school’s expectations.

Our preferred way of re-directing low-level problem behaviour is to ask them to think of how they might be able to act more safely, more respectfully or more responsibly. This encourages students to reflect on their own behaviour, evaluate it against expected school behaviour, and plan how their behaviour could be modified so as to align with the expectations of our school community.

Staff will undertake a refresher in Essential Skills in Classroom Management during term 2 2013.

Targeted behaviour support: Respond Program
If students are identified through our data as needing a little bit extra in the way of targeted behavioural support further support for the behavioural support team is requested. In most cases the problem behaviours of these students may not be immediately regarded as severe, but the frequency of their behaviours may put these students’ learning and social success at risk if not addressed in a timely manner.
Intensive behaviour support: Behaviour Support Team

Jondaryan State School is committed to educating all students, including those with the highest behavioural support needs. We recognise that students with highly complex and challenging behaviours need comprehensive systems of support. The Behaviour Support Team: in our district can assist us to work with students who may need extra help.

- works with other staff members to develop appropriate behaviour support strategies
- monitors the impact of support for individual students through continuous data collection
- makes adjustments as required for the student, and
- works with the School to achieve continuity and consistency.

The Behaviour Support Team has a simple and quick referral system is in place. Following referral, a team member contacts parents and any relevant staff members to form a support team and begin the assessment and support process. In many cases the support team also includes individuals from other agencies already working with the student and their family, a representative from the school's administration and district-based behavioural support staff.

5. Consequences for unacceptable behaviour

Jondaryan State School makes systematic efforts to prevent problem student behaviour by teaching and reinforcing expected behaviours on an ongoing basis. When unacceptable behaviour occurs, students experience predictable consequences. Our school seeks to ensure that responses to unacceptable behaviour are consistent and proportionate to the nature of the behaviour.

Minor behaviours are those that:
- are minor breaches of the school rules
- do not seriously harm others or cause you to suspect that the student may be harmed
- do not violate the rights of others in any other serious way
- are not part of a pattern of problem behaviours
- do not require involvement of specialist support staff.

Minor problem behaviours may result in the following consequences:
- a minor consequence logically connected to the problem behaviour, such as complete removal from an activity or event for a specified period of time, partial removal (time away), individual meeting with the student, apology, restitution or detention for work completion.

- a re-direction procedure. The staff member takes the student aside and:
  1. names the behaviour that student is displaying,
  2. asks student to name expected school behaviour,
  3. states and explains expected school behaviour if necessary
  4. gives positive verbal acknowledgement for expected school behaviour.

Major behaviours are those that:
- significantly violate the rights of others
- put others / self at risk of harm

Major problem behaviours may result in the following consequences:
- **Level One:** Removal to verandah, alternate lunchtime activities, loss of privileges, restitution, loss of break times, warning regarding future consequence for repeated offence, referral to Respond Program and/or
- **Level Two:** Parent contact, referral to Guidance Officer, referral to Intensive Behaviour Support Team, suspension from school
- **Level Three:** Students who engage in very serious problem behaviours such as major violent physical assault, or the use or supply of weapons or drugs can expect to be recommended for exclusion from school following an immediate period of suspension.
The following table outlines examples of major and minor problem behaviours:

</tbody>
</table>
Relate problem behaviours to expected school behaviours
When responding to problem behaviours, staff members ensure that students understand the relationship of the problem behaviour to expected school behaviour. One method that staff members might use to achieve this is to have students:

- articulate the relevant expected school behaviour
- explain how their behaviour differs from expected school behaviour,
- describe the likely consequences if the problem behaviour continues; and
- identify what they will do to change their behaviour in line with expected school behaviour.

Should a problem behaviour be repeated, the staff member may not repeat the discussion/explanation process but simply remind the student of the consequences of their problem behaviour.

6. Emergency or critical incident responses
It is important that all staff have a consistent understanding of how to respond to emergency situations or critical incidents involving severe problem behaviour. This consistency ensures that appropriate actions are taken to ensure that both students and staff are kept safe.

An emergency situation or critical incident is defined as an occurrence that is sudden, urgent, and usually unexpected, or an occasion requiring immediate action.

Severe problem behaviour is defined as behaviour of such intensity, frequency, or duration that the physical safety of the student or others is likely to be placed in serious jeopardy.

Basic defusing strategies
Avoid escalating the problem behaviour
(Avoid shouting, cornering the student, moving into the student’s space, touching or grabbing the student, sudden responses, sarcasm, becoming defensive, communicating anger and frustration through body language).

Maintain calmness, respect and detachment
(Model the behaviour you want students to adopt, stay calm and controlled, use a serious measured tone, choose your language carefully, avoid humiliating the student, be matter of fact and avoid responding emotionally).

Approach the student in a non-threatening manner
(Move slowly and deliberately toward the problem situation, speak privately to the student/s where possible, speak calmly and respectfully, minimise body language, keep a reasonable distance, establish eye level position, be brief, stay with the agenda, acknowledge cooperation, withdraw if the situation escalates).

Follow through
(If the student starts displaying the appropriate behaviour briefly acknowledge their choice and re-direct other students’ attention towards their usual work/activity. If the student continues with the problem behaviour then remind them of the expected school behaviour and identify consequences of continued unacceptable behaviour).

Debrief
(Help the student to identify the sequence of events that led to the unacceptable behaviour, pinpoint decision moments during the sequence of events, evaluate decisions made, and identify acceptable decision options for future situations).
Physical Intervention
Staff may make legitimate use of physical intervention if all non-physical interventions have been exhausted and a student is:

- physically assaulting another student or staff member
- posing an immediate danger to him/herself or to others.

Appropriate physical intervention may be used to ensure that Jondaryan State School duty of care to protect students and staff from foreseeable risks of injury is met. The use of physical intervention is only considered appropriate where the immediate safety of others is threatened and the strategy is used to prevent injury.

Physical intervention can involve coming between students, blocking a student’s path, leading a student by the hand/arm, shepherding a student by placing a hand in the centre of the upper back, removing potentially dangerous objects and, in extreme situations, using more forceful restraint.

It is important that all staff understand:

- physical intervention cannot be used as a form of punishment
- physical intervention must not be used when a less severe response can effectively resolve the situation
- the underlying function of the behaviour.

Physical intervention is not to be used as a response to:

- property destruction
- school disruption
- refusal to comply
- verbal threats
- leaving a classroom or the school, unless student safety is clearly threatened.

Any physical intervention made must:

- be reasonable in the particular circumstances,
- be in proportion to the circumstances of the incident
- always be the minimum force needed to achieve the desired result, and
- take into account the age, stature, disability, understanding and gender of the student.

Record keeping
Each instance involving the use of physical intervention must be formally documented. The following records must be maintained:

- Incident Report on Oneschool
- Health and Safety incident record (link)
- Debriefing report (for student and staff)
7. **Network of student support**

Students at *Jondaryan State School* are supported through positive reinforcement and a system of universal, targeted, and intensive behaviour supports by:

- Parents
- Teachers
- Support Staff
- Administration Staff
- Guidance Officer
- Advisory Visiting Teachers

Support is also available through the following government and community agencies:

- Disability Services Queensland
- Child and Youth Mental Health
- Queensland Health
- Department of Communities (Child Safety Services)
- Police
- Local Council
- Neighbourhood Centre.

8. **Consideration of individual circumstances**

To ensure alignment with the Code of School Behaviour when applying consequences, the individual circumstances and actions of the student and the needs and rights of school community members are considered at all times.

*Jondaryan State School* considers the individual circumstances of students when applying support and consequences by:

- promoting an environment which is responsive to the diverse needs of its students
- establishing procedures for applying fair, equitable and non violent consequences for infringement of the code ranging from the least intrusive sanctions to the most stringent
- recognising and taking into account students' age, gender, disability, cultural background, socioeconomic situation and their emotional state
- recognising the rights of all students to:
  - express opinions in an appropriate manner and at the appropriate time
  - work and learn in a safe environment regardless of their age, gender, disability, cultural background or socio-economic situation, and
  - receive adjustments appropriate to their learning and/or impairment needs.

9. **Technology devices**

Bringing personal technology devices to school is not encouraged because of the potential for theft and general distraction and disruption associated with them. However, if they are bought to school, they must be turned off and handed into the Office at the beginning of the school day. Items are locked in a cabinet for the day and turned to students and the conclusion of the school day. Failure to do this may lead to the devices being confiscated.

Inappropriate online behaviour towards others (cyber bullying) will not be tolerated. Students will participate in regular education programs about proper use of online technology. Any bullying incidents should be reported to the principal.

Procedures for Preventing and Responding to Incidents of Bullying (including Cyberbullying)

Purpose
1. Jondaryan State School strives to create positive, predictable environments for all students at all times of the day. The disciplined and teaching environment that we are creating is essential to:
   - achieving overall school improvement.
   - raising achievement and attendance
   - promoting equality and diversity and
   - ensuring the safety and well-being of all members of the school community.

2. There is no place for bullying at Jondaryan State School. Research indicates that both those being bullied and those who bully are at risk for behavioural, emotional and academic problems. These outcomes are in direct contradiction to our school community’s goals and efforts for supporting all students.

3. Bullying behaviours that will not be tolerated at Jondaryan State School include name-calling, taunting, mocking, making offensive comments, kicking, hitting, pushing, taking belongings, inappropriate text messaging, sending offensive or degrading images by phone or internet, producing offensive graffiti, gossiping, excluding people from groups, and spreading hurtful and untruthful rumours.

4. Bullying may be related to:
   - race, religion or culture
   - disability
   - appearance or health conditions
   - sexual orientation
   - sexist or sexual language
   - young carers or children in care.

5. At Jondaryan State School there is broad agreement among students, staff and parents that bullying is observable and measurable behaviour. When considering whether or not bullying has occurred, we will therefore avoid speculation on the intent of the behaviour, the power of individuals involved, or the frequency of its occurrence. Whether bullying behaviour is observed between students of equal or unequal power, whether it occurs once or several times, and whether or not the persons involved cite intimidation, revenge, or self-defence as a motive, the behaviour will be responded to in similar fashion, that is, as categorically unacceptable in the school community.

Rationale
6. Research indicates that many problem behaviours are peer-maintained. That is, peers react to bullying in ways that may increase the likelihood of it occurring again in the future. Reactions include joining in, laughing, or simply standing and watching, rather than intervening to help the person being bullied. Whilst our school would never encourage students to place themselves at risk, our anti-bullying procedures involve teaching the entire school a set of safe and effective response to all problem behaviour, including bullying, in such a way that those who bully are not socially reinforced for demonstrating it.

7. The anti-bullying procedures at Jondaryan State School are an addition to our already research-validated schoolwide positive behaviour support processes. This means that all students are being explicitly taught the expected school behaviours and receiving high levels of social acknowledgement for doing so. Adding lessons on bullying and how to
prevent and respond to it is a subset of procedures that our students are already accustomed to.

**Prevention**

8. Attempting to address specific problem behaviours will not be successful if the general level of disruptive behaviour in all areas of our school is not kept to a low level. Therefore, our school wide practices will be maintained at all times. This will ensure that:
   - Our behaviour support processes will always remain the primary strategy for preventing problem behaviour, including preventing the subset of bullying behaviour.
   - All students know the school rules and have been taught the expected behaviours attached to each rule in all areas of the school.
   - All students have been or are being taught the specific routines in the non-classroom areas.
   - All students are receiving high levels of positive reinforcement for demonstrating expected behaviours.
   - A high level of quality active supervision is a permanent staff.

9. The student curriculum modules of the anti-bullying process consist of lessons taught by all teachers in all classrooms.
